Notes to Editors:

Incanthera is a specialist oncology company focused on transforming cancer treatment through innovative technologies in oncology and dermatology. It seeks to identify and develop innovative solutions to current clinical, commercially relevant unmet needs, utilising new technology from leading academic institutions.

The Company's current lead product and focus is Sol, a potentially innovative topical product for the treatment of solar keratosis and the prevention of skin cancers.

The Company originated from the Institute of Cancer Therapeutics ("ICT") at the University of Bradford and has acquired and developed a portfolio of specific cancer-targeting therapeutics through a Pipeline Agreement with the ICT and other corporate acquisitions.

Incanthera's strategy is to develop each candidate in the portfolio from initial acquisition or discovery to securing its future through commercially valuable partnerships at the earliest opportunity in its development pathway.
